

## CANNOBIO SUMMER WORKSHOP 2018 A three-day- intensive Art Workshop of Zuse Meyer

Zuse Meyer によるカノービオの三日間の集中アートワークショップ 2018 （日本語は最後をご覧ください）

One of the most gorgeous secret spots of European civilization – the shore of the Lake Maggiore at the southern edge of the Alps – here, the small town of Cannobio, founded by the Romans around 2000 years before. The splendor of the lake, the huge blue sky and the lush green mountains, their reflections on the water, silent gardens, architecture full of history – the affluent beauty of the Lake Maggiore has attracted and inspired an illustrious number of European artists for centuries, among them the German writer Hermann Hesse\*.

The goal of the workshop will be to raise awareness and sensitivity towards the surroundings and towards our feelings and personal ways of perception. “The joy of life, is the joy of being conscious”. Spending three days within the relaxing, soft atmosphere of the lake, being stimulated by a totally fresh environment and infinite forms of beauty, we can open ourselves in new, joyful and creative ways. The exquisite preciousness of the hours will be deepened and expressed through the multiple creative approaches.
